BMS HOLDINGS GROUP LLC PROGRAMS

10-Minute Announcement Process

The BMS Holdings Group LLC operates through four d/b/a's... serving youth sports and arts communities. The d/b/a programs are:

theBMSproject.org	**Quick Pulse Metrics ("QPM")**	**Go-Okie Dokie Gifts**	**Friendlies Flyer**
Health, Safety & Well-Being No-cost/Turnkey	Mid & Postseason Surveys For Fee/Athletes, Parents & Coaches	Books & Merchandise Online Gift Shop	Promotional By Market Community Sports Directories

theBMSproject's youth sports programs are tailored to contribute to the good health, safety and well-being of youth athletes and their families, as well as to mitigate liability risks for participating organizations. theBMSproject's youth in the arts programs serve the same purpose. The roles, services and resources of all four of the BMS Holdings Group LLC's are described in 3-minute introduction videos that can be individually viewed.

We work through youth event organizers, facility operators, for-profit and non-profit youth activities organizations (sports & the arts), educational institutions; as well as mental and physical health service provider institutions, coaches, teachers, instructors and counselors. We DO NOT attempt to tear-down silos... we DO strive to BUILD bridges between the silos.

All of BMS Holdings Programs are designed to be hassle free... simple to implement and maintain. In fact, each of the programs have been designed to only require ten minutes to be introduced by your organization. Each program introduction utilizes a nearly identical four-step process:

1) First review a 1-minute announcement drafted and distributed by the participating organization describing and explaining why the involved program is being announced

2) Then view a BMS provided 1-minute video introducing theBMSproject.org

3) Followed by viewing a BMS provided 3-minute video describing the selected program(s) of interest

4) The final step involves completing and submitting a 5-minute, on-line license application (only used to populate BMS' contact database -- it does not create any commitment and/or obligations whatsoever)

THAT'S IT... 10-minutes and done!
